

EXEC CLUB CHICAGO

Leadership Amplifier

LEAD BEYOND YOUR TEAM. AMPLIFY YOUR IMPACT.

Your impact as a leader isn't measured by what you accomplish alone. It's measured by what you make possible through others. Leadership Amplifier equips directors, senior directors, and leaders of leaders with the strategic perspective, practical capabilities, and confidence to develop other leaders, navigate complexity, influence across the organization, and deliver meaningful business results.

Developed in partnership with DePaul University and delivered entirely in person, this immersive experience combines executive education, leadership assessment, coaching, business simulation, peer learning, and real-world application.

Program Architecture

The Four-Phase Learning Arc

PHASE 1

Lead Yourself

How do I show up as a more intentional, effective leader?

PHASE 2

Lead Others

How do I develop leaders who bring out the best in others?

PHASE 3

Lead Teams

How do I build alignment, accountability, and performance across teams?

PHASE 4

Lead the Business

How do I translate leadership into strategic and business impact?

Choose Your Format

Two Paths, One Powerful Experience

Five-Month Cohort

Five full-day sessions across five months, with coaching, leadership experiments, and workplace application between sessions.

Best For

Sustained leadership growth; developing leaders over time.

Six-Week Intensive

The same five-session learning experience delivered over six weeks, combining concentrated development with opportunities for real-world application.

Best For

Focused leadership development; accelerated capability-building; organizations seeking a more concentrated learning experience.

Learning Philosophy

Less Theory Alone, More Leadership in Action

1. Learn

Research & Frameworks

2. Practice

Discussion & Simulation

3. Apply

Real Workplace Behaviors

4. Reflect

Coaching & Peer Feedback

Every phase includes applied leadership practice, helping participants test new approaches in their organizations and turn learning into measurable progress.
